

## Changes to the New Norfolk timetable

We are listening to the community's feedback regarding changes to bus services and are putting in place the following changes from Sunday 11 August 2019.

### **A new X23 Super Express in the afternoon peak**

The current X22 service departing Hobart at 5:06pm will become X23 and start running super express from Hobart to Granton stopping only at Glenorchy Interchange.

Residents needing to get off at other express stops between Hobart and Granton can catch the Metro X20 departing Hobart at 4:57pm, 5:27pm and 5:47pm which stops at Metro Springfield, Glenorchy, Berriedale, Claremont, Austins Ferry and Granton, or the Metro X21 departing Hobart at 5:12pm and 5:42pm which stops at Claremont, Austins Ferry and Granton.

### **Adjusted timings**

Because we are constantly looking for areas to improve the network we have slightly adjusted some service timings so that what's shown on the timetable better reflects actual travel times.
